801-538-7240

801-538-7467 (Fax)

Mr. Richard L. Wiscombe
1055 South Morgan Valley Drive
Morgan, UT 84050

Dear Mr. Wiscombe:

It has been brought to my attention that you are diverting or have been diverting water from sumps located on the banks of the Weber River with no apparent water right.

In an attempt to identify the water rights associated with your diversion the State Engineer's Water Rights records were searched. We were unable to identify a water right for this diversion.

I would like to take this opportunity to advise you that diverting water without a water right issued by the State Engineer's Office is in violation with the Utah Water Rights Law and legal action could be taken against you.

Please notify this office no later than September 2, 1994, of the validity of your diversion practices and water rights associated with it. I would appreciate your immediate attention to this matter.

If you have any questions concerning this letter, please contact John Mann at 538-7397 or Lee Sim at 538-7380.

Respectfully,

Robert L. Morgan, P. E.
State Engineer
